RE: Extension of BP072864 Andrade

Dear Mr. McCormack,

Per our conversation of 9/16/2009, please be advised that building permit BP072864 has been extended until 3/16/2010. Since these plans were approved under the 2001 building codes, they must be resubmitted to comply with the 2008 California Building Code. A plan check fee of \$80 per hour (minimum 3 hours) will be assessed and must be paid at time of submittal. Any additional plan check time will be due at issuance. Please ensure that the date of submittal allows ample time for plan check and issuance to occur within the 180 day extension period.

Considerable confusion surrounded the building code change and I apologize for the inconvenience and aggravation. If I can be of further assistance, please call or email.

Sincerely,

Tamara Faurot
Land Use Technician
